QUESTION 1

Content & Layout

Please review the Professionals page and share your thoughts on the following:

How is the organization of the content?

Should some sections go ahead of other sections?

Are there some sections that are not needed?

Do the subtitles make sense for what we want to communicate?

How is the wording? Any changes? Is it too wordy?

QUESTION 2

Brain-Based Practice: From Understanding to Action

Steps 1 and 2 were separated in the current draft. Please share your thoughts:

Do Steps 1 and 2 need to be combined?

QUESTION 3

Sample 10-Minute Video Topics

We are considering short video topics for each step. Please review the proposed topics and suggest any additions or changes.

Do you feel the proposed topic is needed?

Do you recommend other topics for mini trainings?

Do you feel the proposed topics are needed?

Do you recommend other topics for mini trainings?

Do you feel the proposed topics are needed?

Do you recommend other topics for mini trainings?

Do you feel the proposed topic is needed?

Do you recommend other topics for mini trainings?

Step 0: Why This Matters

Step 1 (or Steps 1/2 Combined): Understanding the Brain

Step 3: Seeing the Brain in Your Clients

Step 4: Building a Brain-Based Treatment Plan

Step 5: Adapting Your Approach

Step 6: Reflective Practice

- Why Being Brain-Based Responsive Makes a Difference in Treatment
- What Is FASD and What Does This Mean in Practice
- Screening for FASD and Prenatal Trauma in Practice
- The Brain, the Nervous System, and Mental Health: An Overview
- Interpreting and Applying Clinical Testing
- What Happens When You Have No Testing Available?
- Assessing Brain-Based Challenges for Clients and Their Caregivers
- Creating a Treatment Plan That Is Brain-Based Responsive
- DBT Through a Brain-Based Lens
- PCIT Through a Brain-Based Lens
- TBRI Through a Brain-Based Lens
- CBT Through a Brain-Based Lens
- Growing Through Reflection: Sustaining Brain-Based Responsive Practice
